high	platform_listing	Requirement is not yet matched to submitted applicant/product evidence.	Collect matching applicant evidence and verify current official sources before approval.

high	market_import	Chinese label basis is missing for China food import; visible packaging languages are not enough for local sale.	Prepare or verify compliant Chinese label artwork before shipment, including product name, ingredients, net content, origin, importer/distributor, nutrition, date/lot, storage, and required standard markings.
high	market_import	China food import route is not evidenced yet; importer, customs, inspection, label filing/review, and product document set are not confirmed.	Confirm the China food import route with importer/customs broker and collect the required customs, inspection, invoice/packing, contract, origin, health/sanitary, and label materials before booking shipment.
medium	market_import	EU and non-EU olive oil origin wording may not be sufficient for China import origin, COO, and Chinese label claims without supporting documents.	Verify certificate of origin, manufacturer/exporter documents, ingredient/origin statement, and Chinese label origin wording before using Italy/EU origin cues in import materials.
high	certificate	Holder 'Fratelli Mantova / Compagnia Alimentare Italiana S.p.A.' does not match applicant 'Importer / distributor to be confirmed'.	Provide entity relationship evidence or a corrected document naming the applicant.
medium	certificate	Document scope does not clearly mention category 'food'.	Confirm the document covers the reviewed product category and SKU.
high	certificate	Holder 'Compagnia Alimentare Italiana S.p.A.' does not match applicant 'Importer / distributor to be confirmed'.	Provide entity relationship evidence or a corrected document naming the applicant.
medium	certificate	Document scope does not clearly mention category 'food'.	Confirm the document covers the reviewed product category and SKU.

medium	certificate	Document scope does not clearly mention category 'food'.	Confirm the document covers the reviewed product category and SKU.

Missing materials

Priority	Material	Why needed	Acceptable replacement
P1	business registration; tax/payee information where required; platform seller eligibility source	Missing or unsupported seller eligibility prevents approval.	Official registry/source confirmation or applicant document matching the exact platform, market, product, holder, scope, and validity period.
P0	business license or registration certificate; authorization document if applicant differs from rights holder	Major mismatch is high severity and normally requires more information or rejection.	Official registry/source confirmation or applicant document matching the exact platform, market, product, holder, scope, and validity period.

P1	trademark certificate; brand authorization letter; distribution agreement	Missing or out-of-scope authorization is high severity.	Official registry/source confirmation or applicant document matching the exact platform, market, product, holder, scope, and validity period.
P0	official platform restricted-products source; official regulator/customs source where relevant	Confirmed prohibited category is critical and leads to rejection.	Official registry/source confirmation or applicant document matching the exact platform, market, product, holder, scope, and validity period.
P1	test report; certificate; declaration of conformity; COA/SDS/label where relevant	Mismatch or expired evidence is high severity if the category requires certification.	Official registry/source confirmation or applicant document matching the exact platform, market, product, holder, scope, and validity period.
P1	label artwork; claim substantiation; official label/claim requirements	Unsubstantiated or regulated claims can require rejection or human escalation.	Official registry/source confirmation or applicant document matching the exact platform, market, product, holder, scope, and validity period.
P0	document inventory with issue/expiry dates	Unknown validity of a core document prevents approval until confirmed.	Official registry/source confirmation or applicant document matching the exact platform, market, product, holder, scope, and validity period.
P1	platform route source; customs/import source; warehouse or logistics route evidence	Cannot approve China import/cross-border cases until the route and applicable official obligations are verified.	Official registry/source confirmation or applicant document matching the exact platform, market, product, holder, scope, and validity period.
P1	Chinese label artwork; official regulator source; platform category source	Unsupported claims, missing label obligations, or unclear category classification requires more information or human escalation.	Official registry/source confirmation or applicant document matching the exact platform, market, product, holder, scope, and validity period.
P1	official food regulator source; ingredient list; facility/importer evidence where required	Cannot approve food cases until destination-market classification and import obligations are verified.	Official registry/source confirmation or applicant document matching the exact platform, market, product, holder, scope, and validity period.
P1	label artwork; claim substantiation; official labeling/claims source	Missing label obligations or unsupported regulated claims require more information or human escalation.	Official registry/source confirmation or applicant document matching the exact platform, market, product, holder, scope, and validity period.
P1	Target-market benchmark products	Launch readiness needs local price, packaging, channel, and trust-signal references.	5-10 current marketplace, retail, DTC, or user-provided benchmark rows with source basis.
P0	China-compliant Chinese label artwork and label review	Chinese label basis is missing for China food import; visible packaging	Official/current import route confirmation plus matching

		languages are not enough for local sale.	product, label, and shipment documents.
P0	China food import document set and importer/customs route confirmation	China food import route is not evidenced yet; importer, customs, inspection, label filing/review, and product document set are not confirmed.	Official/current import route confirmation plus matching product, label, and shipment documents.
P1	Certificate of origin and origin-claim support documents	EU and non-EU olive oil origin wording may not be sufficient for China import origin, COO, and Chinese label claims without supporting documents.	Official/current import route confirmation plus matching product, label, and shipment documents.
P0	Entity relationship evidence	Holder 'Fratelli Mantova / Compagnia Alimentare Italiana S.p.A.' does not match applicant 'Importer / distributor to be confirmed'.	Business registration, authorization chain, or corrected certificate naming the applicant.
P1	Product/category scope evidence	Document scope does not clearly mention category 'food'.	Scope page, product annex, model/SKU list, or issuer confirmation.
P0	Entity relationship evidence	Holder 'Compagnia Alimentare Italiana S.p.A.' does not match applicant 'Importer / distributor to be confirmed'.	Business registration, authorization chain, or corrected certificate naming the applicant.
P1	Product/category scope evidence	Document scope does not clearly mention category 'food'.	Scope page, product annex, model/SKU list, or issuer confirmation.
P0	Entity relationship evidence	Holder 'Fratelli Mantova / Compagnia Alimentare Italiana S.p.A.' does not match applicant 'Importer / distributor to be confirmed'.	Business registration, authorization chain, or corrected certificate naming the applicant.
P1	Product/category scope evidence	Document scope does not clearly mention category 'food'.	Scope page, product annex, model/SKU list, or issuer confirmation.
P1	Logistics route and budget basis	Launch readiness cannot assess margin and inventory risk without route, cost driver, time, and constraints.	Forwarder quotation, 3PL estimate, or user-provided route comparison clearly marked as not externally verified.
